Subject: Joining Letter for Full Stack Developer

Dear Mr. Khageswar Maharana,

We are pleased to offer you an opportunity to join **Kannovac Technology** as a **Full Stack Developer**. This joining letter confirms your engagement with the organization and outlines the responsibilities, professional expectations, payout structure, and terms applicable to your assignment.

Your role will involve working on assigned **Full Stack Development** activities and supporting Kannovac Technology's technical and project requirements. You are expected to perform your responsibilities with professionalism, technical competence, punctuality, and confidentiality.

Candidate Photograph

Appointment Details

- **Designation:** Full Stack Developer
 - **Employment Type:** Project-Based / Contractual Engagement
 - **Department:** Software Development & Technology
 - **Date of Joining:** 15 September 2026
 - **Mode of Work:** As assigned by Kannovac Technology
 - **Nature of Engagement:** Technical Project Assignment
-

Role and Responsibilities

- Work as a **Full Stack Developer** on projects and technical assignments allocated by Kannovac Technology.
 - Develop and maintain frontend and backend components of assigned applications.
 - Work with appropriate web development technologies and frameworks as required for the project.
 - Develop, test, debug, and improve application features.
 - Integrate frontend interfaces with backend services and databases.
 - Participate in technical discussions, project meetings, and development reviews.
 - Maintain proper documentation of assigned development work.
 - Complete assigned tasks within the timelines communicated by the project or reporting team.
 - Coordinate with the technical and academic teams whenever required.
 - Follow the development standards, project guidelines, and instructions issued by Kannovac Technology.
-

Work Structure

- The engagement shall commence from **15 September 2026**.
 - Project requirements, working schedules, meetings, and deliverables shall be communicated by the concerned reporting authority.
 - The developer shall remain available during the assigned working schedule and attend project meetings whenever required.
 - Any changes in project requirements or responsibilities shall be communicated by Kannovac Technology.
-

Reporting and Coordination

- The developer shall report to the designated **Project / Technical Reporting Authority** of Kannovac Technology.
 - All official project communication shall be carried out through the communication channels approved by the company.
 - Project progress, assigned tasks, technical issues, and completion status shall be reported as required.
-

Mandatory Orientation and Briefing

- Before or at the beginning of the assignment, the developer may be required to attend an internal orientation or project briefing session.
- The briefing may cover:
 - Company policies and procedures
 - Project requirements
 - Development standards
 - Communication protocols
 - Data security requirements

- Professional conduct

- Compliance with the instructions provided during the orientation shall be mandatory.
-

Professional Conduct and Ethics

- Maintain professional and respectful communication with employees, clients, students, and other stakeholders.
 - Do not engage in unethical, inappropriate, abusive, or unprofessional conduct.
 - Do not misuse company resources, software, accounts, credentials, or project information.
 - Do not directly negotiate or accept independent work from Kannovac Technology's clients or students without prior written authorization.
 - Personal contact details or internal company information shall not be unnecessarily shared with clients or students.
 - Any serious violation of professional conduct or company policy may result in termination of the engagement.
-

Confidentiality and Data Protection

- Maintain strict confidentiality regarding:
 - Company information
 - Client information
 - Source code
 - Software credentials
 - Database information
 - Project documentation
 - Technical architecture
 - Student or customer information

- Company source code, documents, project files, credentials, and other intellectual property shall not be copied, distributed, published, or shared with any third party without written authorization.
 - All company and client data must be handled securely.
 - Confidentiality obligations shall continue even after completion or termination of the assignment.
-

Payout Structure

Component	Amount (INR)	Remarks
Project / Engagement Payout		Fixed payout as per assigned engagement
Total Payable Amount		Subject to successful completion of assigned responsibilities

- The total payout for the engagement shall be ₹ .
 - Payment shall be processed according to the company's payment cycle and applicable project completion requirements.
 - Payment shall be subject to successful completion of assigned responsibilities, satisfactory performance, attendance where applicable, and compliance with company policies.
-

Intellectual Property

- Any source code, application, documentation, database structure, design, technical material, or other work product created specifically for Kannovac Technology or its clients during the engagement shall remain the property of the company or the respective client, as applicable.
 - The developer shall not independently use, sell, distribute, or reproduce such work products without prior written permission.
-

Completion and Future Engagement

- Continuation, extension, or allocation of additional projects shall depend upon project requirements, technical performance, professional conduct, and mutual agreement.
 - Successful completion of the assignment may be considered for future technical projects with Kannovac Technology.
-

Certificate / Experience Recognition

- Upon successful completion of the assigned engagement, Kannovac Technology may issue an appropriate **Work / Experience Certificate** confirming the individual's role and contribution, subject to company verification and completion requirements.
-
