

Khageswar Maharana

Bhubaneswar, Odisha, India | 8260532020 | khageswarmaharana462@gmail.com | linkedin.com/Khageswar | github.com/K-Maharana

EDUCATION

Aryan Institute of Engineering and Technology
Bachelor of Engineering in Computer Science
Minor in Mathematics and Physics

Bhubaneswar, Odisha
Nov 2022 – May 2026
GPA: 8.56/10.0

WORK EXPERIENCE

Angodigital Technologies Pvt. Ltd.

Bangalore, Karnataka

Full Stack Developer Intern (Onsite) - [Joining Letter]

Oct 2025 – Nov 2025

- Built full-stack applications using **Java, Spring Boot, React.js, MySQL, JPA/Hibernate, and Redis**.
- Developed **REST APIs** with React.js integration and **JPA/Hibernate, MySQL** data operations.

Kavya Infoweb Pvt. Ltd.

Pune, Maharastra

Full Stack Developer Intern (Remote) - [Joining Letter]

Mar 2026 – Aug 2026

- Completed **6-month full-stack training** in **Java, Spring Boot, React.js, REST APIs, and databases**.
- Developed **full-stack features** integrating frontend, backend APIs, and databases.

PROJECTS

NexusOps – Enterprise Operations Management Dashboard | GitHub | Demo | Live

Java, Spring Boot, React.js, Tailwind CSS, MySQL, Redis, Docker, CI/CD

- Architected a highly complex enterprise operations portal using **Spring Boot** and **React.js**, improving team administrative efficiency by **30%**.
- Configured robust **Role-Based Access Control (RBAC)**, **JWT**, and **OTP** verification pipelines to secure enterprise user administration and data integrity.
- Implemented **Redis caching** and advanced database query optimization, reducing heavy **SQL lookups** and latency by **35%**.
- Containerized backend services using **Docker** and integrated automated build workflows to streamline **CI/CD pipelines** and staging deployments.
- Integrated live activity **log audits**, automated error tracking, and custom state management with **Redux Toolkit** to reduce troubleshooting overhead by **30%**.

Ninety – AI-Driven Productivity & Agentic Workflow Platform | GitHub | Demo

Java, Spring Boot, React Native (Expo), Gemini API, Docker, Kubernetes, Linux/Ubuntu

- Built an interactive **AI evaluation portal** using **React Native Expo** and **Spring Boot**, accelerating feature validation and interface testing cycles by **30%**.
- Configured custom **AI workflows**, prompt patterns, and context management integrating the **Gemini API** for automated code review, documentation generation, and insight extraction.
- Deployed **25+ enterprise REST APIs** featuring custom **rate limiting**, robust error handling, and containerized orchestration via **Docker** on **Ubuntu Linux** servers.
- Maintained rigorous software quality standards, automated test validation, and observability across **Git-based development workflows** and deployment pipelines.
- Designed comprehensive **React dashboard views** for real-time model feedback and performance tracking, increasing daily operational visibility by **35%**.

TECHNICAL SKILLS

Programming Languages: Core Java, JavaScript(ES6+), MySQL, Redis, JPA/Hibernate

Frameworks & Libraries: Spring Boot, React.js, React Native (Expo), Redux, Tailwind CSS, REST APIs

UI/UX Tools & Methods: Responsive Web Design, Mobile Development, PenPot

Testing & Workflows: Junit5, Mockito, Maven, Agile

Developer Tools & Environment: Git/GitHub, Vercel, Postman, Docker

ACHIEVEMENTS

- Solved **300+ LeetCode DSA** problems, strengthening everyday coding logic and efficiency. [Profile]
- Maintained **zero backlogs** across semesters with three consecutive engineering academic awards. [Records]
- Presented at an **international conference** on data analytics and intelligence. [Certificate]
